

Did you know?

Did you know that the Eiffel Tower gets six inches taller in the summer? The 1,062-foot monument is more than six inches taller in the heat, thanks to thermal expansion, which causes the iron structure to grow.

Why I Save

Kirby loved riding his bike with his friend, Lilly. They would whiz through the neighborhood with the wind in their hair. But one day, disaster struck – his beloved bike broke down. Kirby's face turned from joy to worry as he inspected the damage. Kirby and his dad took his bike to a local bike shop for repairs, and they found out the part Kirby needed to fix his bike was quite expensive.

Kirby felt a little sad because he didn't have enough money to get his bike back on the road.

Thankfully, Kirby's Dad had an idea. "Tomorrow, we'll go to the credit union and see if you have enough in your savings account to fix your bike." Kirby's Dad reminded him that was why it was important to always have some money saved. "Many call their savings an emergency fund," explained Kirby's Dad. "That way you have money to pay for moments just like these."

Thankfully, Kirby had enough money in his savings account at the credit union to pay for the bike repairs. Kirby and his dad withdrew the cash he needed to cover the repairs at the bike shop.

Soon, Kirby was back to riding his bike with Lilly. He told her the story of how he got his bike repaired. "Why do you save money at your credit union?" his friend Lilly asked. With a smile, Kirby explained, "Saving money is like having a superhero friend. When we save, we can be ready for unexpected adventures, like my bike breaking down. My credit union keeps my money safe. That way I have my own money, so I don't have to worry about life's unexpected breaks."

Kirby Poll

What's Your Dream Vacation Spot?

Beach

Amusement Park

Camping

City

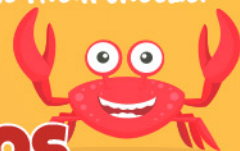

Visit your credit union's Kirby Kangaroo website to take the poll and view other kids' answers!

KIRBY JOKE!

Achhhhoohoo!

Why do sea fish swim in salt water?

Because pepper water would make them sneeze.

MINI LID BANJOS

You will need:

- Mason jar lid, 1 per banjo
- Jumbo craft stick, 1 per banjo
- Small rubber bands, 4 per banjo
- Washi tape
- Duct tape
- Sequences/beads
- Craft glue

Directions:

1. Place rubber bands around lid, then secure the bands to the back side of the lid with duct tape.
2. Decorate one end of the craft stick with washi tape.
3. Glue sequins or beads to the rounded side of craft stick.
4. Duct tape the other end of the stick to the lid.
5. Grab friends and form a band!
